

# ROYO MACHINERY

**Name :** RL-SRFM Series Water-based Laminating Machine

**Features:** This machine is a new laminating equipment which meets the demand of environmental protection and adopts water-based glued film that is innocuous and inodorous when being laminated. Then the paper has good conglutination, high transparency, strong third dimension, also it can dissolve the power on the surface and can not appear spots. The machine has many functions such as automatic slitting film, automatic stop when lacking of paper ,automatic glue control, counting paper, paper drilling, rolls delivery and fast reel-changing mechanism.

**Technical parameters:**

Model	RL-SRFM-720	RL-SRFM-1020	RL-SRFM-1200
Laminating Width(mm)	650	950	1150
Laminating Speed(m/min)	0-40	0-40	0-40
Motor Power(kw)	1.1	1.1	1.5
Heating Power(kw)	2	3	4
Laminating Temperature			
Paper Weight(g/m <sup>2</sup> )	80-400	80-400	80-400
Weight(t)	0.8	1	1.3
Measurement(mm)	1100×1100 ×1400	1350×1100 ×1400	1500×1100 ×1400
